2006 Mid-Season Evaluation Summary

Umpire: **Hernandez, Angel**

Report Date: **August 1, 2006**

Exceeds Standard Ratings

Date of Game	Observer	Visitor	Home	Umpire's Position	Category	Rating
4/11/06	Gutierrez	SD	FLA	1B	Focus	Exceeds
Observer's Comments: In the top of the 2nd inning w/ 0 outs, Piazza hit a chopper in front of home plate. As Piazza ran to 1st, the ball struck Piazza on his left shoulder out of plate umpire Marsh's view. Hernandez immediately ran from his position and helped his partner by emphatically signaling "OUT" for interference on the play. Marsh immediately echoed Hernandez' call emphatically as well. This is the type of situation that is often left up to the umpire making the call to seek help after an argument or otherwise. By being extremely focused and taking initiative to get the call right as the play unfolded, Hernandez saved his crew from having to possibly confer after the play. Outstanding work!						
4/12/06	Gutierrez	SD	FLA	HP	Style and Form of Calls	Exceeds
Observer's Comments: His well above average coordination, style and strength in mechanics placed him as "exceptional" on this date. From his wide open and ready box stance to his ball/strike/other calls, he was extremely smooth and natural. Called strike three is without a doubt one of the strongest/best-looking in the league because of its style and explosiveness.						
4/20/06	Christman	DET	OAK	1B	Style and Form of Calls	Exceeds
Observer's Comments: Umpire Hernandez had many close calls at first base in this game and consistently exhibited clear, crisp and decisive calls. He also increased his intensity as the plays became closer. He had a couple of check swing/no swing calls and again was very decisive with his clear signals. I thought he had a great game and consistent series.						

Hernandez, Angel
Exceeds Standard

2006 Mid-Season Evaluation Summary

4/20/06	Christman	DET	OAK	1B	Focus	Exceeds
---------	-----------	-----	-----	----	-------	---------

Observer's Comments: Umpire Hernandez showed outstanding focus in this game. He had many close calls at first base and had them all correct. He ten close force plays, a balk, two catch/no catch plays, fair/foul and a pick play. He had a busy day and handle them all with poise.

5/17/06	Christman	SEA	OAK	HP	Style and Form of Calls	Exceeds
---------	-----------	-----	-----	----	-------------------------	---------

Observer's Comments: Umpire Hernandez had three tag plays at home plate and was correct on all three. One of the plays was a bit unusual. The A's had a runner on second base and two outs and batter, Kielty, got a base hit to right field. Kielty never stopped running and was caught in a run down between first and second base. The A's runner at second base had stopped at third base and then tried to score during the run down and was tagged out going towards the plate. The play went 9-3-6-5. I thought all of Umpire Hernandez's signals were clear, concise and decisive throughout this game. Umpire Hernandez is a true veteran of league and tonight, in my opinion, was one of his best games.

6/14/06	Nichols	NYM	PHI	2B	MLB Procedures	Exceeds
---------	---------	-----	-----	----	----------------	---------

Observer's Comments: Angel did the best job I have witnessed manipulating the resumption of play when warmups were completed early. He timed his signals to resume play with the home plate umpire almost perfectly each time so that the first pitch of the inning would be right on standard. He was into doing the pace of game management very seriously and worked hard with his signals consistently to do it correctly.

6/16/06	Gutierrez	TOR	FLA	HP	Style and Form of Calls	Exceeds
---------	-----------	-----	-----	----	-------------------------	---------

Observer's Comments: He showed exceptional talent and far above average mechanics once again on this date. From stance to call he appeared to have outstanding cohesiveness in all of his mechanics and a very distinctive, convincing style that looked totally natural. To top it off, because of talent coupled with his consistent, lively hustle, this was without a doubt one of the best-looking plate jobs in this category I have observed this year.

Hernandez, Angel
Exceeds Standard

2006 Mid-Season Evaluation Summary

6/21/06 Springstead ARI TB HP Situation Management Exceeds

Observer's Comments: PREVENTED A POSSIBLE EJECTION BY EXPLAINING PLAY.(BALK CALL)

6/25/06 Buck HOU CWS HP Focus Exceeds

Observer's Comments: EXCELLENT focus in this very challenging game. Score was extremely lopsided, then the White Sox came up with 8 runs in the last three innings to tie the score. The game ended up going 13 innings, and Angel stayed extremely focused throughout the whole thing. In addition to managing things at the plate, Angel was focused enough to realize that the batter-runner should be placed at third after a fan interference call down the rightfield line in the top of the 13th inning (no outs, Everett the hitter). Not a placement that is usually made, but absolutely the right one in this circumstance. Great job.

7/3/06 Mele PIT NYM 1B Reactions to Development of Plays Exceeds

Observer's Comments: There were two unusual and uncommon plays in this game that I thought were handled exceptionally by ump Hernandez, warranting an exceeds rating.....In the top of the 6th, no outs and no one on, Bay hit a ground ball to deep third base. The throw to first pulled the first baseman off the bag. As Bay tried to avoid the fielder, he appeared safe at first. Ump Hernandez did not make a safe or out call. The first baseman then went behind the bag and tagged Bay. Angel called Bay out as Bay never touched the bag as he passed first base. Excellent timing on the play and as the Pirate manager came out to question the call, the discussion was calm.....Also, in the top of the 8th, 1 out, runners on first and second, Bay hit a ball over the leftfielder's head. The leftfielder quickly caught the ball on a bounce as he banged into the wall. The 3B ump, out on the play, clearly signalled no catch. There was some confusion with the runner from first and also the batter Bay.

Trend (Tr) Codes:

- O:** Calling strikes on pitches outside the strike zone and/or calling balls on pitches that are strikes on the outside corner.
- I:** Calling strikes on inside pitches.
- L:** Not calling strikes on pitches low in the strike zone.
- H:** Not calling strikes on pitches high in the strike zone.

Percentage (%) Codes:

E: Exceeds Standard.
S: Meets Standard.
B: Below (Does Not Meet) Standard.

Other Codes:

HB: High Buffer. Number of pitches called strikes in the high buffer zone (N's) that were changed to A's. The higher the number, the more aggressively the umpire is calling HIGH STRIKES.

actual low: Number of low strikes missed. The lower the number, the more accurately the umpire is calling LOW STRIKES.

High Index: Indication of how well umpire is calling high strikes. Positive numbers indicate higher proficiency in calling high strikes. Lower (negative) numbers indicate poorer proficiency in calling high strikes. The higher the number (positive), the higher the umpire's proficiency in calling high strikes.

The index is calculated by subtracting the number of legitimate high strikes called balls by the umpire from the number of high buffer zone strikes called by the umpire.

Check mark(s) below indicate current area(s) of emphasis for this umpire.

- ☒ *High*
☐ *Low*
☐ *Inside*
☐ *Outside*

General Mid-Season Comments:

Solid performance in adhering to the overall strike zone. Looking for improvement at the high end, where pitches in the top portion of the strike zone should be called strikes as defined.

High Index: -6.

Report Date: **August 1, 2007**

Exceeds Standard Ratings

Date of Game	Observer	Visitor	Home	Umpire's Position	Category	Rating
4/18/07	Christman	LAA	OAK	2B	Style and Form of Calls	Exceeds
Observer's Comments: Umpire Hernandez had a couple of very tough force plays at second base. On both plays, he kept his eyes focused on the play until the play ended. Because of this he not only got the plays correct, but he had excellent clear, concise and very decisive signals. He increased his intensity on these calls and "sold" both calls...great signals and even better judgement. I thought he had a very good game.						
4/18/07	Christman	LAA	OAK	2B	Hustle	Exceeds
Observer's Comments: Throughout this game, Umpire Hernandez exhibited solid hustle getting into the outfield and other areas on the field to be in position to make his calls. This happened a couple of times on long doubles to the outfield. He repeatedly hustled out into the outfield.....a solid positive impression of good hustle.						
5/11/07	Russell	CIN	LAD	1B	Reactions to Development of Plays	Exceeds
Observer's Comments: As per Play Analysis form, Fair/Foul, Angel was in good position to immediately make the correct call, "fair." Great job!

2008 Mid-Season Evaluation Summary

Umpire: **Hernandez, Angel**

Report Date: **August 1, 2008**

Exceeds Standard Ratings

Date of Game	Observer	Visitor	Home	Umpire's Position	Category	Rating
4/9/08	Springstead	ATL	COL	HP	Situation Management	Exceeds
Observer's Comments: - OUTSTANDING -						
6/29/08	Buck	COL	DET	HP	Situation Management	Exceeds
Observer's Comments: Did not take the bait when questioned by pitcher after two pitches he wanted for strikes (top 1, 1 out, Helton the hitter). Pitcher walked off mound in disgust. Angel yelled out that the pitches were off the plate but did a great job in not escalating the situation. Also very professional in shutting down someone in the Tiger dugout during this same half-inning (after Holliday's at-bat). Angle also had a very low-key discussion with the pitcher when he came out for the top of the second inning that seemed to work, as there were no further problems in this regard. Another good job of handling situation with Tiger manager after Angel did not grant tim-out request from hitter, bottom 1, 0 outs, runners on first and third, Guillen the hitter. The manager was yelling from the dugout, and Angel firmly reminded him of the directive from MLB regarding the calling of time. Again, handled the situation without escalating it.

Report Date: **August 1, 2008**

Situation Evaluations

Date	Evaluated By	Incident Type	Rating	Comment
5/16/08	Port	Ejection	Meets	Ejection of Cecil Cooper (2nd) for arguing play at plate and "insisting" he be thrown out of the game. No video of actual ejection, but professional demeanor shown by umpire Hernandez in what is available.
5/27/08	Port	Ejection	Meets	Ejection of Julio Lugo for arguing check-swing decision (no swing) from shortstop position after being warned to stop. Ejection of Terry Francona for arguing Lugo's ejection and inappropriate comments. (Not all of Lugo shown on video).
6/4/08	Port	Equipment Violation	Meets	Equipment violation issued to Magglio Ordonez for throwing bat after being called out on strikes to end the inning.
7/8/08	Lepperd	Ejection	Meets	Ejection of Odalis Perez for arguing balk call. Abusive language following ejection. Had to be restrained.

Exceeds Standard Ratings

Date of Game	Observer	Visitor	Home	Umpire's Position	Category	Rating
5/8/09	O'Connor	TB	BOS	3B	Reactions to Development of Plays	Exceeds
Observer's Comments: Bottom 6. 2 outs. Runner on 1st. 1-2 count. Boston's Ellsbury swung at and foul-tipped the pitch. The catcher, Hernandez, caught the ball very near the ground. Home Plate Umpire Bill Welke called the ball 'foul', ruling that it hit the ground before Hernandez caught it. Both the pitcher and catcher pointed to 3rd base Umpire Hernandez as if they were asking for an appeal. Umpire Hernandez was taking a couple steps toward the plate with his closed fist out to the side (indicating that the ball was caught). Umpire Welke then called Ellsbury 'out' ruling that the ball was caught. 3rd base coach Hale calmly approached Umpire Hernandez to discuss the play as Boston's manager Francona came out and questioned Umpire Welke. Umpire Hernandez and Hale remained very calm and composed as they talked about the play. It appeared as though Umpire Hernandez simply explained the protocol on such a situation. Umpire Hernandez handled the situation extremely well right from the start. As soon as the foul-tip occurred he put out his fist, attempting to assist Umpire Welke with the call. His mechanics were very clear, yet he did						
5/25/09	Garcia	TB	CLE	HP	Focus	Exceeds
Observer's Comments: Very focused and showed consistent concentration throughout the game. There were over 400 pitches in this game and Angel did not go off his strike zone. GOOD JOB!!!!!! Read Supervisors Comments!
